

# CALLING ALL PARENTS

Do you want a better education for your children?

Do you want new resources that help them develop?

You are probably well aware that the government are planning to expand the free childcare entitlement to 30 hours.

You might not know that this could mean many providers of your child's care lose more than £1600 per child each year.

You almost certainly didn't know that the reason for this shortfall is an unfair system where funding is distributed unevenly between children - some effectively receiving 4 or 5 times as much as others.

We can stop this unfair situation and give every child the best possible start to education.

**BUT WE NEED YOUR HELP!**

Join us in our fight for fairer funding
